A short text about out mission

We do....
- ?
- help other companies to build the best software possible... (link to the "Services" page)

A short text about our area of expertise (+link to the "About us" page)

Technologies cloud (see thehive.com for a example)

Just $49.95/hr or 0x30
if you can hex....

Possibly some nice illustrating picture

Contact info

I don't like the idea with a such label because people may think that we do not like flexible prices. But we do. Maybe something like "starting from 49.95..." or an explicit function definition (price(project)=....)? Apparently, in jokey style.

Moderately detailed text about out services.

Approximate (!!!) plan:

- Services
- Technologies
- Prices

(about us, beginning...)

Contact info

(about us, the rest)

Topics to cover:

- our mission and vision
- our achievements (DLTK, SWT, ...?)
- our people (photo + role + short free-style resume, see hashrocket.com, humanized.com and others)
